

April 2014

Due to the need to relocate our Hamilton ToolShed we required the services of a cabinet maker to supply and install a new counter and a packing bench.

Having had a building trade background, and the experience of setting up numerous stores, I drew up a plan of what we required. After talking to a builder friend he suggested that I give Adrian a call at De Bruin Cabinetmakers.

Adrian had some good constructive suggestions on finishes and construction etc, of which we went with. After receiving his quotation, which I thought looked good value for money, we accepted it. Delivery was promised for 4 weeks after acceptance.

Four weeks later, the units were delivered on time and made to the plans. We were exceptionally happy with the way we were looked after which included product, price, service, and being delivered on time.

We would recommend the use of De Bruin Cabinetmakers services.

Kind Regards

*Graeme Giles*

ToolShed Director.
